November 14, 2011

Dear GJUESD Employees and Families,

I am proud to unveil our community's very first **Galt Youth Master Plan** best described through the theme of **Learn. Share. Grow**. Despite times of great economic challenge, this process and product were prioritized to create a collective vision and roadmap for our community's youth ages 0 to 24.

Our intergenerational work involved collaborative efforts with youth, school district employees, City of Galt, Galt High School District, parents, community organizations and regional partnerships including grants from the Sierra Health Foundation. The Galt Youth Master Plan is organized in age spans and includes 2010-2011 accomplishments. A special thank you to John Durand, GJUESD Youth Development Coordinator, Janet Munoz and Patricia St. James for their on-going efforts through the REACH Initiative to advance this forward-thinking work for our youth and community.

With Galt recognized as one of the 100 Best Communities for Young People through the America's Promise Alliance, we are on the right path to keep moving forward with our youth together in the short and long term!

Sincerely,

Karen Schauer, Ed.D.  
GJUESD Superintendent
